Re: Comments on Revised Remedial Investigation / Feasibility  
Study Work Plan for the 200-BP-1 Operable Unit

Dear Mr. Freeberg:

The U.S. Environmental Protection Agency (EPA), as the lead regulatory agency for the 200-BP-1 operable unit, has completed its review of the RI/FS Work Plan which was dated July 21, 1989. The EPA received the Work Plan from the U.S. Department of Energy (DOE) on July 21, 1989.

All of EPA's comments on the revised document are enclosed. Our target date for issuing this document for public comment is September 5, 1989. Prior to that date, we need to come to resolution on the enclosed comments. I am requesting that these comments be addressed in the Work Plan before the public comment period begins. I am proposing that we hold a conference call on August 22, 1989, to discuss resolution of these comments. That should allow adequate time for you to incorporate the changes and still meet the target date for public comment.

If you have any questions, please contact me at  
(509) 376-6623 or FTS 444-6623.

Sincerely,

Paul T. Day  
Hanford Project Manager
